PART I. OF

THE STATISTICAL ATLAS OF

ENGLAND, SCOTLAND, AND IRELAND.

Edited by G. PHILLIPS BEVAN, F.S.S., F.G.S., &c.

The increasing attention that is now being given, both at home and abroad, to the study of Statistics, warrants the belief of the Publishers, that this attempt to illustrate the Statistics of Great Britain and Ireland by Maps will be appreciated by a large section of the scientific public, and will help to popularise and make more interesting one of the most important branches of knowledge.

It is proposed to embody fifteen groups in all, each group including three Maps with small Plans of the Capitals, one for England, one for Scotland, and one for Ireland (on the same scale), to appear monthly as nearly as can be arranged. The whole Atlas will thus contain Forty-five Maps, or Fifteen Parts, each of which, however, can be had separately, price 7s. 6d. Each part will be accompanied by copious Letterpress, bringing the Statistics of the group up to the latest date. The following subjects will be treated upon :—

I. Religious.	IX. Legal.
II. Educational.	X. Railway and Telegraph.
III. Industrial.	XI. Sanitary.
IV. Criminal.	XII. Geological and Mining.
V. Poor-law and Pauperism.	XIII. Hydrographical (Water Supply.)
VI. Marine (Commercial.)	XIV. Political.
VII. Agricultural.	
VIII. Military and Naval.	

XV. Population.

No efforts will be spared to make the information reliable, and as full as is compatible with clear delineation ; and it is confidently hoped that the result will be an illustrated compendium of British Statistics which will form a unique work of standard reference.

OPPOSITE BOMBAY CLUB, BOMBAY.

COMMERCIAL INTELLIGENCE

WEDNESDAY EVENING, DEC. 15, 1880.

A WITHDRAWAL of £125,000 is again advised from the Bank of England, but in the open market the rate of discount is still quoted at 2⅞ per cent. Consols are quoted ⅛ lower at 98⅜; French Rentes unchanged at 119½; and Enfaced Rupee Paper at 82 for Fours and 89½ for Fours-and-a-half.

Coffee and Cocoanut-oil are still quoted at previous rates. Linseed comes dull and 3d. per quarter lower in Calcutta, to arrive. Rapeseed unchanged. Wheat, Reuter says, is dull on the spot, but firmer for arrivals, quotations showing an advance of 9d. per quarter in No. 2 Club.

Piece-goods in Manchester are firm in tone, but the higher prices asked check business. Quotations are advanced 1¼d. per piece in Shirtings and ⅜d. per piece in light Goods.

The Liverpool Cotton market yesterday closed firm; sales 10,000 bales, of which 1,000 were Surats; prices being unchanged all round. In New York, however, while ready Mid.-Uplands were unaltered at 11⅞ cents, March shipment has advanced from 12·22 to 12·50 cents per lb. The receipts at the U. S. ports to date give the following comparisons with the two previous seasons:—

	1880.	1879.	1878.
Tuesday's receipts	31,000	30,000	33,000
Four days' do.	116,000	113,000	112,000
Total since 1st Sept.	2,885,000	2,700,000	2,271,000

EXCHANGE.—Bar Silver in London comes unchanged at 52d. per oz., but with a firmer tone advised from Calcutta and a considerable amount of private paper offering here, the market has shown an upward tendency, and although Bank Bills are not altered, rates for private paper are advanced 1-32d., both ready and forward. A considerable business has been done during the day, mostly for future delivery, on the basis of 1-16d. per rupee per month advance on to-day's quotations, and it seems now as if we were fully to have sufficient doing to maintain a firmer tone henceforward. As usual we shall be guided for the balance of this mail by the price obtained for Council drafts. With an average of 1s. 7 13-16d. we should probably be no stronger, but there seems to be a very general belief that something over that figure will be realised. We quote at the close:—

Bank Bills on demand	1s. 7 25-32d.	per rupee.
Do. telegraphic	1s. 7¾d.	„
Do. 3 months' sight ..	1s. 7⅛d.	„
Credits, 3 „ „	1s. 8 1-16d.	„
Documents, 3 „ „	1s. 8 3-32d.	„
Francs, 3 „ „	2f. 11⅛c.	„

On Calcutta we still quote demand drafts at par. GOVERNMENT PAPER opened quiet and from Calcutta comes weak, but during the day here a better enquiry has developed and the market closes firm at Rs. 99½ to ⅝ for Fours, and Rs. 108⅜ to ⅝ for Fours-and-a-half.

SHARES are quiet but pretty steady. Bank of Bombays are ¼ per cent. higher at Rs. 736½. Agras Re. 1 lower at Rs. 134. Colaba Land shares are Rs. 2½ easier at Rs. 825. In Mofussil Company's shares there has been a decline of Rs. 5, the closing rate being Rs. 335. Spinning and Weaving Mill shares are quiet, and in some cases slightly lower. We quote a decline of Rs. 5 in Jewraz Balloo, Khandeish, and Mazagon, Rs. 7½ in Orientals and Rs. 10 in Manockjee Petits. Bombay-Burmah Trading Co.'s shares are Rs. 15 higher at Rs. 2,190.

COTTON has been active, and a large business has been done at an advance of Rs. 2 to Rs. 3 per candy. Sellers have shown great firmness in anticipation of the advance in American futures inducing an upward movement in Liverpool to-day, otherwise a larger business would have been done, as buyers were very willing to go on. In Broach considerable transactions have taken place at Rs. 245 for March and Rs. 248 for February. Hingunghaut has changed hands for January at Rs. 246 for Good, Rs. 248 for Good to Fine. F. G. F. Omra. for February delivery was sold in the morning at Rs. 220, but sellers are now asking Rs. 223, and Rs. 228 for Good.

FREIGHTS are quiet for Liverpool at 35s. both for weight and measurement, but a large business is doing for Marseilles and Genoa at 42s. 6d., payable here, and a steamer has been fixed for February loading at 37s. 6d. U. K., Continent or Mediterranean, with concessions.

PIECE-GOODS are quiet at unaltered values all round. The off-take from the bazaar averages about 300 packages of all kinds, and shows no signs of improvement at the moment, the large supplies counteracting the firmness at home.

COALS are firm at previous prices with few sellers to arrive.

ORDERS BY THE COMMANDER-IN-CHIEF IN INDIA.

Adjutant-General's Office, Simla, Dec. 6.

The Government of India has decided that officers shall, when required, keep up carriage according to the invariable rule of the service, and that the Commissariat Department should assist officers as much as possible, by using such private carriage for Government purposes during the time the carriage is not required by the officer at whose charge it is retained. It is notified for information and guidance, that the above ruling applies to the late campaign in Afghanistan, and that during the time private carriage was used for government purposes, officers are not required to pay for it; when, however, Government transport animals were lent to officers for their private use, the rates of hire to be charged are, for camels 8 annas per diem; for mules, ponies or bullocks, 7 annas per diem; and these rates are to be recovered by officers debiting themselves in their pay lists, or in regimental general state, with the amount of hire, in the same manner as they now debit themselves with the rations received from the Commissariat.

It is notified for general information, that the Government of India have been pleased to accord sanction to native commissioned, non-commissioned officers and soldiers of native regiments returning from service and moving by rail, who may obtain furlough or leave of absence while en-route, being permitted when rejoining to resume the journey and to travel by rail at the public expense, as far as the regiment proceeds by rail, on the understanding, however, that no expense is incurred which would not have fallen on the state had the officers and men accompanied their corps to its destination.

The C.-in-C. in India is pleased to make the following appointments:—

8th N. I.—Surgn. G. F. Nicholson, M. D., to the officiating medical charge of the regiment, during the absence on furlough of Surgn. A. S. Reid, M. B., or until further orders.

NOTICE.

ALL LETTERS, PARCELS, and TELEGRAMS for HIS EXCELLENCY the GOVERNOR and the PRIVATE SECRETARY which cannot be delivered at Government House, Parel, by 12, noon, on THURSDAY, the 16th instant, should be addressed "GOVERNOR'S CAMP," without the addition of any post town, till further orders.

C. G. W. MACPHERSON,
Ag. Private Secretary
to H. E. the Governor.

Government House, Parel, Bombay, 13th Dec., 1880.

Messrs C. MARCKS & COMPANY,
OF
BOMBAY and POONA,

HAVE the pleasure of announcing that Mr. A. MENIST, Oculist's Optician, of Amsterdam and London, has appointed them AGENTS for the sale of his celebrated PEBBLE SPECTACLES and EYE-GLASSES, BINOCULARS, &c.

Mr. MENIST makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to obtain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts, and the joints become loose, altering the focus of the glasses, and so injuring the eyes; neither is there any economy in it, for in this climate it corrodes so quickly that it must be often renewed, while Gold or Silver are practically everlasting, and Aluminium cannot be used, for it leaves an indelible mark on the skin wherever it comes in contact with it.

Mr. MENIST'S NON-PRESSURE EYE-GLASSES have a spring so made that it may be twisted in any direction without breaking, and they maintain their position when worn without any pressure or leaving any mark when removed.

His 12-lens "DUCHESSE" are all Achromatic and as powerful as Field Glasses.

His FIELD, MARINE, and OPERA GLASSES may be used for hours without causing the eyes to ache.

Mr. MENIST has left instruments with Messrs. C. MARCKS and Co. which enable them to test each eye separately, for it frequently happens that they differ more or less in power.

MESSRS. C. MARCKS and Co., for the convenience of clients who may not wish to purchase Mr. MENIST'S GLASSES, have also in stock some of their own manufacture, at lower prices, in Gold, Silver, and Steel frames, and though the quality of the pebbles is admittedly not equal to those of Mr. Menist, yet it is very good, and much superior to most of what is sold as the "finest Brazilian Pebbles."

Pamphlets may be had on application.

Mail-steamer Rosetta, from Australia, arrived.

Some alarming rumours are rife with regard to the movements and intentions of Ayoub Khan. An Afghan now in Bombay asserts that Ayoub is making great preparations, and raising a large army with the intention of attacking Kandahar, or cutting off supplies from that city. At present there appears to be a great deal of uncertainty as to Ayoub Khan's movements.

Two thousand men have been sent to Gilgit to reinforce Major Biddulph.

On the 16th ultimo the reserve in the Akola treasury amounted to Rs. 30,71,370.

Lieutenant-Colonel Palmer, 9th B. C., has been appointed Assistant Adjutant-General of the Meerut Division.

Sir John Strachey left Allahabad on Sunday evening for Bankipore, where he remains on a short visit to friends, prior to his journey to Bombay and his final departure from India.

With respect to the coffee propects in Ceylon all accounts agree that both as regards estates and native gardens leaf disease has not been so scant as in the present season.

The Irish famine relief fund, as far as Calcutta is concerned, was formally closed on Friday. At a meeting held in the Chamber of Commerce it was shown that Bengal had contributed no less a sum than one hundred and two thousand rupees, and the whole amount has been collected, save five hundred rupees.

As a sop to the Nagas, the Khonoma men are, it is said, to be given back their confiscated lands, whilst other villagers are to be allowed to rebuild their villages on the old sites, paying a merely nominal rate of revenue. The *Englishman* thinks this may have the effect of keeping these tribes quiet for the present, but its permanent efficacy is doubtful.

The circles of superintendence in the Provincial Branch of the Public Works Department in the North-West Provinces have undergone re-adjustment. Under the new arrangement the Ganges has been taken as the line of demarcation, and two circles, with their head-quarters respectively at Agra and Lucknow, will each include all the divisions on their own side of the river. This distribution comes into force on the 1st of January.

By the death of His Grace the archbishop of Goa the ecclesiastical authority at Goa again lapses in the hands of the Chapter, of which in an election of the canons the Coadjutor Bishop D. Thomas Gomes de Almeida has been nominated president (Vigario Capitular). By this death the Coadjutor Bishop loses his jurisdiction, and cannot exercise the functions of ordaining priests ; a telegram, therefore, has been sent to Rome to obtain the necessary authorisation.

However much the breakwaters of Colombo and Madras may differ from each other in construction and form, there is at any rate, observes the *Ceylon Times*, one feature common to both of them, according to the plan for the Colombo work designed by Sir John Coode : it is this, that both of them will have an opening six hundred feet in width exposed to the violence of tempest winds and waves. At Madras this opening is to the west ; at Colombo it is intended to be to the north-north-west, in the teeth of the most troublesome wind during the north-east monsoon.

In an article dealing with the probabilities of a war between Russia and China, a leading Japanese newspaper, the *Nichi Shimbun*, says :—The Russians think they can conquer the Chinese at one blow. Their only anxiety is to know what course Japan will take if war breaks out. If our country, forming an alliance with China, were to attack the Russians in the rear, and force them from their strategical places, their expected conquest would be converted into a defeat, and they would suffer great loss. Therefore it is very important to the Russians to know previously what Japan's attitude will be in case hostilities should commence. As to China, the case is just the same. If our country were to enter into an alliance with Russia, and lend her provisions and munitions, and provide conveniences for repairing vessels and give other assistance and facilities, then Russia would be fighting to as much advantage as if she were close at home. In a word, the attitude of Japan in the struggle is of great moment to both China and Russia. No other country in the East forms the balance of power the same as Japan does : therefore, we believe, both Russia and China will seek to get us to form an alliance, or at least secure our neutrality. Asia is very large, and the populations inhabiting it are numerous indeed, but only Japan and China out of the whole can be said to be absolutely independent. Therefore, whatever may be the case, it is most injurious to our diplomatic policy in the East that we should enter into an alliance with Russia and be hostile towards China. Nevertheless it will be seen, without explanation on our part, that it is not advisable for this country to enter into an alliance with China, and declare war against Russia. Such being the state of affairs there is nothing better for us to do than to remain neutral and look on.

The *Pioneer* states that on the 4th instant the Hon'ble Mr. Gibbs, Member of Council, attended by Captain Firebrace, Under-Secretary in the Railway Department, arrived at Ajmere *vid* the Western Rajputana Railway, which may thus be supposed to be approaching completion. Colonel Hancock, Consulting Engineer to the Government of Bombay accompanied the hon'ble member, and after inspection of the railway works at Ajmere, returned towards Ahmedabad, completing as he went his official inspection of the northern section of the railway, which is in the charge of Mr. A. C. Cregeen, Engineer-in-Chief. It is understood that Colonel Hancock has passed this section for opening on the 1st January, 1881, and that a further inspection will be made, about the 20th, of the remaining 40 miles of the line, the work on which is less forward by reason of the heavy floods which occurred in the neighbourhood of Abu in the latter end of October. If all goes well, His Excellency the Governor of Bombay will, on return from his tour in Kattiawar, leave Ahmedabad on the evening of the 29th December, and arrive on the morning of the 30th at Erinpura, where he will be the guest of the Agent to the Governor-General for Rajputana. On arrival at Erinpura His Excellency will be invited by the Engineer-in-Chief to drive in the last spike, and to declare the Western Rajputana Railway open. In the afternoon a public luncheon to the staff of the Western Rajputana State Railway is to be given, when His Excellency and the Agent to the Governor-General for Rajputana will be the honoured guests of the Engineer-in-Chief. On this occasion it is expected that there will be much speech-making, and that His Excellency will be the chief speaker. His words, being those of an experienced railway director, will doubtless be watched with interest by the mercantile community of Bombay as well as by the railway officers. After luncheon His Excellency will continue his journey to Ajmere, where he will arrive on the morning of the 30th. From Ajmere a journey in Nusserabad is contemplated on the 31st, where His Excellency will present new colours to the 2nd P. W. O. Grenadiers. On return from Nusserabad the same evening His Excellency will honour by his presence a railway ball to be given in the Ajmere Workshops, and will on the following day pay a short visit to Jeypore, returning thence *vid* Abu and Deesa to Bombay.

In the London Probate Court on November 24th Mr. Middleton made an application in reference to the will of the late Sir Charles William Lockyer Merewether, C.B., K.C.S.I., of Indian celebrity, on behalf of Lady Merewether, for a grant of administration of the will of her husband, who died on the 4th October last. The will was dated the 11th September, 1868, and was made at the time the deceased was Political Agent at Aden. The cause of the matter being brought before the court was a double signature to the will. It was signed "W. L. Merewether" and "William Lockyer Merewether." The learned President granted the application, provided an affidavit to the effect that there was no other will in existence was produced.

American journals comment with considerable bitterness of tone upon the painful contrast between the receptions respectively accorded to Sarah Bernhardt and to the widow of the patriot-martyr Abraham Lincoln upon the coincident arrival of these two ladies in New York. The French actress was greeted, as she stept ashore, with enthusiastic cheers and "musical honours." A handsome equipage awaited her ; and as, enveloped in costly furs, she moved towards it, an elderly lady, poorly dressed, followed her across the gangway leading from the steamer's deck to the quay-side. Scarcely, however, had this shabby female's foot touched American soil when a policeman seized her by the arm, and exclaiming "Stand back, madam !" roughly pushed her aside, probably under the impression that she was about to importune the incomparable Sarah for alms. The old lady uttered no remonstrance, but waited in the crowd until Mademoiselle Bernhardt had driven off in all her glory, and then humbly walked away, carrying her travelling-bag in her hand. It was Mrs. Lincoln who had been thus rudely thrust back by the New York constable, lest she should in any way mar the magnificence of the welcome accorded to a foreign actress by those who, but a few years ago, would have eagerly courted her favour.

The *Pall Mall Gazette* notices that the India Council have resolved to increase the amount of their weekly drafts from 30 lakhs to 35 lakhs ; and this augmentation is obviously unavoidable if the Budget estimate of the drawings for the year is to be realised. It seems to the *Pall Mall*, however, that there is great wastefulness in thus continuing to draw upon the Indian treasuries. England now owes India several millions as her contribution to the Afghan war expenditure. To suit her own convenience, the payment of this debt has been deferred till next year ; but the money is now actually due, and if it were handed over at once, it would enable the Indian Government to stop the weekly drawings, and so avoid the present heavy loss on exchange. Can it not be arranged to issue here some species of floating obligations which could be paid off out of the Imperial contribution to the Afghan expenditure when that is made ? It is time, too, that the Council were doing something to improve their general method of drawing. Their drafts are now taken up by capitalists who intend to make a profit by retailing them to those who wish to remit to India. Can matters not be so arranged that the intervention of these middle parties shall be dispensed with and their profit secured for the Government ?

The *Daily News* informs us that Mr. Darius L. Goff, of Providence, U. S. A., is the possessor of a clock of singularly varied capacities. It is situated in the hall of Mr. Goff's residence, in near proximity to the front door, which, as it is opened and shut, winds it up. In return for this service the clock turns on the gas in the hall as soon as darkness comes on, and lowers it to a bead light at a particular hour fixed upon as bedtime. At dawn, or at such hour as it is time for the servants to be up, the clock rings a bell in the back hall with a persistence that precludes possibility of excuse on the ground that the signal was not heard. An hour later it rings a bell in another part of the house, warning the family that it is time to rise. Half an hour afterwards a third peal of the bell announces breakfast. This wonderful piece of mechanism is perhaps more pleasurable to contemplate at a distance than at home. It is possible to conceive circumstances under which its rigid persistence in ringing bells at precise hours would become insupportable. The weak point of the clock is, of course, in respect of its connection with the front door. Any member of the household, whether subject to first morning bell or the second, might by a little judicious superfluous opening and shutting of the door bring about those complications which result from overwinding. Mr. Darius L. Goff is doubtless the sort of man who will not be satisfied until, in addition to the household duties already performed by the clock, it cooks the dinner, blackens the boots, brushes its master's clothes, and wheels the infant out in a perambulator.

SIR JAMES FERGUSSON'S DEPARTURE FOR BHOWNAGAR.

The arrangement under which Sir James Fergusson was to leave for Bhownagar to-day underwent a further alteration, the result of which was that His Excellency and party left from the Apollo Bunder after midnight yesterday. At noon yesterday, the Superintendent of Marine received an order from Government House to have boats ready at the Apollo Bunder in the evening for the kit belonging to His Excellency and party. This direction was duly carried into effect ; and it was expected that Sir James and the members of his staff, for whom a steam-launch was kept ready, would arrive at the bunder at 10 p. m. The social amenities to be observed at a gubernatorial dinner —especially in bidding good-bye to the Rt. Hon. W. P. Adam, the Governor Designate of Madras, who was a guest for the last night—detained the party at Parel later than was anticipated ; and they did not drive up to the bunder until after midnight. His Excellency was accompanied by the Hon. Mr. Ashburner, Mr. C. Gonne, Chief Secretary, Mr. C. G. W. Macpherson, Private Secretary, Colonel Stracey, Military Secretary, Captain Claremont, Aide-de-Camp, Dr. Waters, Surgeon, and Lord Abercrombie, who arrived by the last mail-steamer, and was a guest at Government House. The party at once left for the May Frere, which steamed away shortly afterwards.

A TRAGEDY AT BELGAUM.

(FROM OUR OWN CORRESPONDENT.)

BELGAUM, Dec. 12.

Last night a terrible tragedy was enacted here in the camp bazaar. A sepoy of the 22nd Bombay Native Infantry had some words with a woman named Yellu during the course of the afternoon, and having answered his name at roll-call, he muffled himself up in his greatcoat, hiding his rifle underneath it, and proceeded to the bazaar. When he arrived at the house of the unfortunate woman he entered it, and shutting the door, deliberately shot her, together with her mother and a cousin. The young woman died at once, but the mother lived to be taken to the hospital, where she died during the night. The murderer at one time announced his intention of defying all comers, but he surrendered after an hour's parley to Lieutenant Hughes, the adjutant of the regiment. This officer, with Private Ryan, of the 83rd Regiment, who was on duty in the bazaar, and a seik havildar of the 22nd Regiment, behaved with great coolness and determination. The murderer's name is Deen Mahomed. He was committed to the sessions by the Cantonment Magistrate, Major Trueman, to-day. He admitted the crime, and made no excuses. Another outrage was committed, also in the camp bazaar, last night by two sepoys of the 22nd Regiment, who cut a woman's nose off. They also were taken before Major Trueman to-day.

A sad occurrence took place on Sunday, the 5th December, when the church clerk, Private Thomas Furness, shot himself through the body. He lingered for some hours, but all the efforts of Doctors Brodie and Harman failed to save his life. He was a quiet man and much respected. At the inquest a verdict of "temporary insanity" was given.

The Commander-in-Chief is expected on the 13th January, and Surgeon-General Moore should be here on inspection duty to-day.

The weather is all that could be wished.

The 83rd leave here on the 10th January for England.

THE BOMBAY HUNT.

(FROM OUR HUNTING CORRESPONDENT.)

The meet yesterday morning was at Mahalakshmi railway station, on the B.B. & C. I. Railway, and a good field collected. There were some familiar faces absent, however, and none of the fair sex vouchsafed their always welcome presence, probably owing to the concert on Tuesday night having kept them up late. The Master led from the station round to the bridle-road which runs across the flats, and after a little drawing a find was made in the long grass on the right hand side of the road. The line first taken by the jack was in the direction of Parel, but he turned towards Mahim before reaching the railway, and eventually headed for Worlee Hill ; and when nearing the hill he was viewed once well in advance of the hounds. The run across the flats was truly delightful, the pace being brisk and the ground in excellent order. The jack was hunted on Worlee for nearly half an hour, leading twice almost the entire length of the hill, giving several sharp runs ; and those who have any acquaintance with this ground know what a sharp run along Worlee means. But jack knew the hill better than the hounds, and he eventually got off—let us hope to afford some sport another day. The Master then led back to the flats and drew the covert adjoining Tulsi main. Here, after some time, the hounds gave tongue, but the scent found was poor, and the hounds lost it once or twice before they ultimately struck the line. This led towards Worlee again, and the manner in which the hounds hunted on across the flats was admirable. The jack was traced to a covert at the foot of Worlee hill, where he was hard pressed for some time, till he eventually broke and took to the hill. He was driven from this after a short time, when he sought refuge in the mangrove swamp between Mahim woods and the northern end of Worlee. This proved heavy going for the hounds, but they ultimately drove him, as well as other two jacks (thus disclosing a hitherto unknown covert), on to the hill again, when another hard run was got for the whole length of the hill. Jack was then driven off the hill on to the flats again, and hunted over towards Mahim, where, it being 8 o'clock, he was finally abandoned, So ended the morning's sport ; and though there was no kill, there were a couple of hours' most enjoyable riding and hunting. Notwithstanding the rough ground of Worlee and the numerous ugly walls which had to be negotiated, there was only one spill, and as this was from a tat, the unfortunate rider broke no bones. The next meet is at Andheri, right in the midst of the happy hunting-ground of Salsette. The dews are heavy now, the morning air is cold and bracing, and if we are fortunate enough to find, we can depend on a pleasant run. Andheri is about three miles beyond Karr.

THE CONCERT AT THE TOWN HALL.

The concert held at the Town Hall on Tuesday night, in aid of the funds of the Indo-British Institution, was very successful. The programme in itself was sufficiently attractive, but with so able a contingent of well-known and favourite amateurs the public were right in anticipating a treat. The attendance was very large, and among those present were H. E. the Governor and Lady Fergusson, H. E. the Commander-in-Chief and Mrs. Warre, and Admiral and Mrs. Gore-Jones. Altogether the institution has good reason to congratulate itself upon the results of Tuesday night. The programme opened in the orthodox way with an instrumental duett (harmonium and piano) by Messrs. Mant and Johnston, and Mr. Geo. Norville followed with J. L. Hatton's "Goodbye, Sweetheart, Goodbye." Familiar though the ballad is to everybody, the charm of its simplicity and unaffected sentiment are never impaired by repetition. No one could handle it more effectively than did Mr. Norville, and he well deserved the loud and continued applause with which his performance was greeted. The audience were determined to hear more of his voice, and Mr. Norville was good enough to respond to an *encore* with "My Sweetheart When a Boy." Mrs. Adams sang next, and we feel tempted to say that her rendering of "There is Music in the Fountain" was the feature of the entertainment. Unfortunately the work of the evening was very unequally distributed, and although we are sure many would have been glad to see Mrs. Adams oftener on the stage, it was too evident that that lady was allotted a larger share of the programme than she was equal to. We are sorry to say that in the middle of her last song Mrs. Adams fainted away. Mr. Wyer gave warning that he was disabled by a cold and hoarseness ; nevertheless there was nothing in his singing to suggest that he was in other than good form, and his excellent baritone shewed to great advantage in Barri's "Saved from the Storm." "The Two Locks of Hair" by Mrs. Morland was a positive treat ; and there is certainly nothing new that we can say in praise of this talented lady's singing. Mr. Dixon's was perhaps a rather still small voice, considering the size of the hall and the greater power of the voices which preceded and followed his own. Mrs. Morland and Mrs. Adams came on again in the duett "Voices, Lingering Voices." We have seldom heard anything prettier or more charmingly rendered, and it was very enthusiastically cheered. Mrs. Hewett and Mr. Payne sang together "Yet Once Again," which was heartily appreciated. Mrs. Adams' last song was "Ruby ;" and she had only got half through when she fainted. "O Christmas Night!" (with piano and harmonium accompaniment) by Mr. Wyer brought the concert to a close."

THE ADJUTANT OF THE B. V. R.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

Sir—Your article of this morning as to the enforced retirement of Captain Stokes is but a faint expression of the indignation and regret felt by all members of the corps at the prospect of losing at so early a date the services of one who has made his worth so thoroughly felt by us all. To the uninitiated it may appear of little consequence who is adjutant, but we Volunteers know by experience what it is to have a man who simply does his work, and nothing more, and to have a man like Captain Stokes, who enters most thoroughly into all matters connected with the corps, and who spares himself not at all in its interest. It will be hard, indeed, to find a man of his stamp to succeed him. Can nothing be done towards moving the Government of India to redress the wrong done in this case to the volunteer cause ? Let a memorial to Government be started, and I have no hesitation in saying that it would be signed by every member of the corps—officer, non-commissioned officer, and private.

Dec. 15. AN OLD VOLUNTEER.

THE HARBOUR FERRY AT ALIBAG.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

Sir,—It is well that it should be known that the managers of the harbour ferry steamers have suddenly abolished both first and second-class accommodation, and that English ladies and gentlemen can only now, of right, travel as coolies. No notice whatever was given to the public of the change. Yesterday I crossed the harbour in the Howrah with a friend and three ladies, and it was only by the great courtesy and kindness of the captain that we escaped the society of a crowd of half-naked coolies. The captain was so good as to rig up an awning for us on the upper deck.

Dec. 14. P.

BICYCLING.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

Sir,—Allow me on behalf of myself, Mr. M., and Mr. D. (the three cyclists who took part in the bicycle race last October) to correct the absurd statement made by Mr. J. and F. S. in your issue of the 5th and 6th instant, viz., that 37½ miles was accomplished by the winner in 2 hours 18 mins. 30 secs., thus doing 16 miles per hour. Neither I nor those who competed with me ever gave Mr. Johnstone or F. S. any authority to make this statement, and regret exceedingly that the former, who started the race, should have made so serious a mistake in the time, as he ought to have known better. The real facts of the case are that 37½ miles was accomplishing in 3 hours 8 mins. (12¼ miles per hour). This was considered very good work for the time of the day, and considering the bad state of the roads, the dust, the glare, pedestrians and vehicles, hordes of cattle, and stray dogs in one's way, and consequently shouting and loss of temper, as Q.Q. states, the awful thirst, the difficulty of obtaining water,—and with all these obstacles and annoyances to put up with, to accomplish 16 miles per hour is simply preposterous ; and I would stake Rs. 500 that no bicyclist could accomplish such an extraordinary feat even in the mid-day October sun on the Tanna and Goorla roads.

The steed which needs no oats, requires no costly stable, demands the services of no groom, never tires, and is highly recommended by physicians, is all very well in England, but in India must only be used in the mornings and evenings. With regard to its medicinal qualities, these I can vouch for from experience, for I am never so well, either in mind or body, as when I am enabled to ride the iron horse. These "infernal machines" (as the Bombay correspondent of the *Pioneer* calls them) are far ahead of any other conveyance, both for business and pleasure, whilst for riding into the country and touring it has no equal. The horse is nowhere by the side of the bicycle, and the bicyclist, moreover, is so perfectly independent of both man and beast that he feels quite another being. After the first few aches that accompany the early education of the bicyclist, he is amply repaid for his troubles by the ease and rapidity with which he gets along when once he has achieved success. No butterfly emerged from the chrysalis flits more gaily through the air ; nor the swallow first launched from the eaves skims along more merrily over the smooth road.

There is something in the feeling of bicyling that suggests forcibly the idea of flying—the smooth gliding motion, the almost entire absence of friction, the swiftness with which one cuts through the clear fresh air, and above all, the ease and lightning rapidity with which one can change the direction of one's course, all combine to inspire the feeling of being upon wings, an imagination in which, except perhaps, in a dream, it is not often that one can indulge. So much for its usefulness in one direction. Now let us notice another branch, in which it is even more useful. I refer to the stimulus given to trade by its manufacture. There are, I find, not fewer than 130 firms throughout England engaged in the manufacture of the bicycle. In another branch, too, the bicycle shows the firm nature of the hold it has taken upon the British public, *i. e.*, the press ; there are no less than three weekly newspapers, viz., the *Bicycling News*, *Bicycling Times*, and the *Cyclist*. Such is the pastime which has sprung up within the past five years, and not only built up for itself a name amongst the sports by numbering in the aggregate 120,000 votaries, but has also created a trade of considerable importance to the industries of England. We have every reason for the greatest wonder that there should be any found to oppose its claims, but there are, for many are the men, supposed to be in the full possession of their faculties, who will speak of them as "those infernal machines," and even, in their childish hate, go so far to endanger the limbs and lives of their fellow countrymen who are not as narrow-minded as themselves, by thrusting their walking-sticks or umbrellas into the wheel they bestride, solely for the gratification of a demoniac and imbecile spite, which finds a pleasure in the bodily and mental anguish and sorrows of others. In conclusion, I would strongly advise all who have not made themselves masters of the art—for art it is—to do so without delay ; and I can assure them that, mounted on a bicycle of sound manufacture and modern build, they will find no pleasanter or healthier means of spending their spare hours than by thoroughly exploring the roads, hills, and valleys of their own sweet and pretty country.

Street Accident.—On Tuesday morning last an old Hindoo woman was knocked down and run over on the Parel Road by a hansom-cab driven by Mr. Tomlinson's coachman. She sustained a fracture of her right leg by the accident, and was removed to the J. J. Hospital for treatment.

Theft at Bellasis Junction Road.—Sulliman Badur, residing in Bellasis Junction Road, reported to the police on Tuesday last the theft of a box containing currency notes and cash, of the value of Rs. 295, from his residence on the night of the 12th instant, during his absence from home.

Accident.—A Hindoo lad, 12 years of age, accidentally got two of the fingers of his left hand crushed by the machinery of the Anglo-Indian Spinning and Weaving Mills, de Lisle Road, on Tuesday last, where he was at work. He was conveyed to the J. J. Hospital, where the two fingers were amputated.

Recovery of a Stolen Watch.—About ten days ago Sergeant-Major Abbot, of the Bombay Volunteer Rifle Corps, residing on the third floor of the old Sailors' Home, on the Esplanade Cross road, reported to the police the theft of a silver watch and chain, valued at Rs. 72. On Tuesday last it was found that the watch and chain had been placed in complainant's pouch.

The Ajanta Caves.—A correspondent writes :—The Caves of Ajanta are not easily to be seen. The rugged road and dangerous ingress are frightful. Could not the rough effects be made into flights of steps, with parapets ? A few hundred rupees of masonry will remedy the dangerous positions sight seers are put to. Some of the caves are filthy.

The Ahmednuggur Railway.—The total receipts for October last amounted to Rs. 2,143 against Rs. 3,120 for the corresponding month last year. The decrease is in salt, Rs. 234 ; general goods, Rs. 812 ; and grain, Rs. 46. The total decrease is Rs. 1,231 against Rs. 254 increase. Major Engledue, R. E., the officiating Manager, announces that the "cause of decrease cannot be ascertained."

A Sweet Present.—Messrs. Buncombe and Co., of Allahabad, have been good enough to forward a small box containing various sweetmeats, with regard to the flavour of which they invite criticism. We are able to report favourably upon the toothsomeness of Messrs. Buncombe's confections, which, being made in the country, are quite fresh, and for which, we understand, there is a great demand.

An Honest Malee.—Ragoo Cassee, a malee, employed in the Elphinstone Circle Gardens, found on Tuesday last a bundle containing three currency notes for Rs. 20 each, and Rs. 20 in cash, within the garden compound, and made it over to the police. A peon in the employ of Mr. Pestonjee Dadabhoy Surveyor, at No. 2, Church Gate Street, subsequently claimed the bundle, which was satisfactorily proved to be his property, and handed over to him by the police. One rupee was given to the finder for his honesty.

Accident at Drainage Works.—Balla Hurree and Govind Namajee, labourers, employed at the drainage works opposite the 25th Native Infantry Lines, were digging in the drains, when Balla Hurree accidentally struck a loaded blast, which exploded, causing a compound communuted fracture of the left leg and knee-joint and a lacerated wound of the right eyeball, destroying the eye, with several other wounds in other parts of the body. Govind Namajee received a severe lacerated wound on the right thigh, and several smaller wounds over, other parts of the body. They were both conveyed to the Goculdass Tejpal Hospital, where Balla Hurree's thigh was amputated.

Assaults.—Hoosein Kurroobhoy, Dawood Sajun, and Chundoo Monik were yesterday convicted by Mr. C. P. Cooper of assaulting Cooverjee Wussunjee, a Small Cause Court bailiff in the execution of his duty at the Khudduck on the 11th instant, and also Rahimbux Raymon, a butcher. Prisoner No. 1 was fined Rs. 100, and the other two were fined Rs. 30 each.—Mahomed Hajee Elibux and Mahomed Hassun were also convicted by the same magistrate yesterday of assaulting Hussein Jan Hubib during the taboot procession at Pydownee on Monday last. This will give Major Stewart the officiating second-in-command. Lieutenant Penton, R. A., No. 3 Field Battery H. C., having proceeded on one year's sick furlough to Europe, Lieutenant Turner, R. A., has taken his place at Bolarum. Surgeon Browne, M. D., of the 3rd Infantry H. C., having proceeded to take up his appointment in Madras, Surgeon-Major Riddell, 1st Cavalry H. C., is doing duty till a medical officer is appointed. Captain Cummins, Squadron Officer, 4th Cavalry H. C., has also proceeded on fifteen months' sick leave to Europe. About one-third of the officers of the H. C. service are now absent on leave.

Theft and Forgery.—Lieutenant A. B. Mein, of the Marine Battalion, reported to the police on Tuesday last that a cheque had been stolen from the Marine Battalion cheque-book, which is kept in the adjutant's office of that regiment, at the Marine Lines. On the day previous (Monday) the cheque, it appears, was presented at the Bank of Bombay—for Rs. 30—by the native firm of Hurgovun Vunmallee and Co. The forgery was detected ; on which the firm stated that they received the cheque in the course of business from a Mahomedan. On Mr. Superintendent Crummy going to the adjutant's office on Tuesday it was further discovered that five other blank cheques had been stolen from the cheque-book. Upon enquiries made by Mr. Crummy his suspicion was aroused against a Mahomedan clerk named Cassum Abdool Raymon, who had left the adjutant's office a few minutes before Mr. Crummy's arrival there. Consequently Mr. Crummy and Lieutenant Mein followed the clerk to the Marine Lines, and on taking off his left shoe the five blank cheques fell out of it. He was then made a prisoner and placed amongst a dozen sepoys of the regiment, all in plain clothes, and the partner of the firm of Hurgovun Vunmallee and Co. who received the cheque on behalf of the firm, and subsequently presented it to the Bombay Bank, was sent for. This man at once identified Cassum Abdool Raymon amongst the others as the man who gave him the cheque for Rs. 30. Prisoner thereupon admitted his crime. Cassum Abdool Raymon was yesterday charged under sections 467 and 471 of the Indian Penal Code, before Mr. P. Ryan, when the evidence of Lieutenant Mein was recorded, and the case postponed for further hearing to Wednesday, the 22nd instant.

The "Guide."—The Indian Railway Travellers' Guide for December has reached us, and we return our best thanks to the publishers for the same. The publication extends to 150 pages of matter in small type. The chief features of the "Guide," which render it so useful to Indian tourists, are the railway time and fare tables, and descriptive notes of the chief towns of India, with information as to the accommodation to be had in them for travellers. An excellent coloured map of India, showing the railway lines, &c., accompanies the Guide. We may here throw out a hint to the publishers to appoint an agent in Kurrachee for the sale of the "Guide," as in other places noted on the title page.—*Beacon.*

The Late Race Meeting at Poona.—We have just heard that the Poona stewards have disqualified Mr. Herbert's Arab Exchange for the Criterion Stakes run for at our last september race meeting, and that the horse Heliograph, which came in second, will be now entitled to receive the stakes. This decision will not effect the lotteries or Pari Mutuel in any way as bets, &c, as in this case they are inseparable from the Stakes. We mention this as our opin

May 16, 1879. No. 6, Apollo Street. Fort,

PROVISION FOR OLD AGE COMBINED WITH A PROVISION FOR THE WIDOW AND ORPHAN.

EXAMPLE.

A CIVILIAN, European or Native, aged 20 next birthday, wishes to lay apart a sum of about THIRTEEN RUPEES a month in such a way that his savings will be securely invested until thetime of his retirement from Service; and that should he die beforehand, a provision will be secured for his relations. By payment of a sum of Rs. 163-0-0 per annum (or at the rate of about Rs. 13-0-0 per mensem) as the premium for an endowment Assurance, he will become entitled to Rs. 5,000 on attaining age 55; and should he di before attaining that age—even after payment of only one year's subscription—the full sum of Rs. 5,000 will be paid to his representatives. [*Vide* Table III. of Prospectus.]

THE SAME PROVISION, IF COMMENCED

at age 25 would cost about FIFTEEN RUPEES a month;
at age 30 EIGHTEEN RUPEES a month;
at age 35 TWENTY-ONE RUPEES a month
at age 40 TWENTY-EIGHT RUPEES a month;
at age 45 FOURTY ONE RUPEES a month;

The rates for other Ages, also for Endowments payable at Ages 45, 50, and 60, and all further information, may be obtained on application
Premiums can be paid half-yearly, quarterly, or monthly, at slightly increased rates.

There is an obvious advantage in effecting Investments of this nature *early in life*:—by delay the rate of subscription increases:—death may occur before the intended provision is made:—or health may fail and render the life ineligible for Assurance.

(No. 19.)

RED SEA—GULF OF SUEZ.

SUEZ BAY—LIGHTS AT PORT IBRAHIM.

WITH reference to Notice to Mariners, No. 9, issued from this Department on 7th August, 1880, the Controller General of Egyptian Light-houses at Alexandria points out that the information therein contained—which was re-printed from the Notice to Mariners No. 111, issued by the British Hydrographic Office, on 5th July, 1880—is inexact in some particulars. The following revised information is therefore published:—

1. Two floating light-buoys painted black are placed 897 yards seaward of the entrance of the harbour, from which lights may be exhibited on application at the Port Office—*red* on the northern side of the channel; *green* on the southern side.
2. A fixed *red* light is shown from the extremity of the north mole head; a fixed *green* light, from the extremity of the south mole head.
3. A fixed *white* light is shown from the extreme (western) end of the inner pier of the harbour.
NOTE.—The foregoing green and red lights mark the channel into the port.
Entering Port Ibrahim—the *red* lights are left on the port hand, the *green* lights on the starboard hand, the vessel being steered for the white light on the inner pier.

BUOYAGE.

Also, that a buoy has been placed on each side of the channel to Port Ibrahim, 368 yards from the mole heads—the northern buoy in a line with the red lights, the southern buoy in a line with the green lights.
